MANAGED IT
MYTHS VS. FACTS

SETTING THE RECORD STRAIGHT

IT myths cost businesses time, money, and security.
Let's set the record straight!

MYTH		FACT
Managed IT is only for large companies.		**Businesses of all sizes benefit from scalable IT solutions.**
We only need IT support when something breaks.		**Proactive IT prevents costly downtime and keeps operations running.**
In-house IT makes managed services unnecessary.		**Managed IT enhances in-house teams with expertise and 24/7 support.**
Compliance equals security.		**Compliance meets regulations, but true security goes further.**
Managed IT is too expensive.		**Strategic IT investments reduce risks and improve efficiency.**
Cybercriminals only target large businesses		**Small businesses are top targets due to weaker security.**
Our IT works fine, no need to upgrade.		**Outdated IT slows growth and increases security risks.**
Cloud services are automatically secure		**Cloud security needs proactive monitoring and safeguards.**

IT MYTHS CAN COST YOUR BUSINESS
